# HOLIDAY EXPERIENCE

Accessible to which  
type of disability

# The problem

Travel agents/online travel agents, are not accessibility experts!

Ex. different needs for different disability types

-  Does the reception desk have hearing device?
-  Does the elevator have control buttons with contrasting color?
-  Does the room have light signs to indicate a knock on the door?
-  Does the TV have an alarm clock?
-  Can the traveler order room service from the TV?

# The problem

Main parameters we look for on wheelchair accessibility.

There isn't one standard for an accessible room, every room looks different.

# The solution

Travaxy also integrates seamlessly with your existing booking process.

**PUBLIC AREA**

Hotel located on a hill No	Hotel has a ramp No	Ramp Angle 6°

**MORE INFORMATION**

**COVID-19**  
Local rules require out-of-state guests to complete the New York Traveler Health Form. Proof of completion of the form will be required upon check-in at the hotel. Due to temporary rules for all hotels in the state of New York, guests who have recently visited any state with high community transmission are subject to a mandatory self-quarantine. Please complete the form and view restricted states at [health.ny.gov](https://www.health.ny.gov).
