UNWTO Commission for Africa
Fifty-fourth meeting
Tunis, Tunisia, 24 April 2013

Item 3 of the provisional agenda

REPORT OF THE SECRETARY-GENERAL

Note by the Secretary-General

The Secretary-General presents to the Members of the UNWTO Commission for Africa his remarks about (a) International tourism in 2012 and prospects for 2013, (b) Mainstreaming tourism in the global agenda, (c) the Implementation of the general programme of work for the period 2012-2013 and d) administrative and financial matters.
Introduction

1. The present report to the 54th meeting of the Commission for Africa addresses the following subjects:
   A. Update on International Tourism in 2012 and Prospects for 2013;
   B. Mainstreaming Tourism in the Global Agenda;
   C. Implementation of the Programmes of Work 2012-2013; and
   D. Administrative and Financial Matters.

Some of the above-mentioned subjects have constituted the object of dedicated reports for this meeting.

A. Update on International Tourism in 2012 and Prospects for 2013

2. Overview on the year 2012: Despite growing global economic volatility, particularly affecting the Eurozone, international tourist arrivals grew by 3.8% in 2012 to reach an historic milestone of over one billion (1.035 billion). Demand held well throughout the year, with a stronger than expected fourth quarter. Emerging economies (+4.1%) regained the lead over advanced economies (+3.6%), with Asia and the Pacific showing the strongest results.

3. By region, Asia and the Pacific (+7%) was the best performer, while by sub-region South-East Asia, North Africa (both at +9%) and Central and Eastern Europe (+8%) topped the ranking. The Americas (+4%) saw an increase of 6 million arrivals, reaching 162 million in 2012. Arrivals grew by 6% in Africa to reach a new record (52 million) due to the rebound in North Africa (+9%) and to the continued growth of Sub-Saharan destinations (+5%). Results in the Middle East (-5%) were still on the negative, in spite of the clear recovery in Egypt.

4. Preliminary data on international tourism receipts for 2012, not yet complete for the full year, indicate that the growth in receipts may have followed closely that of arrivals. Among the top ten tourism destinations, receipts in the first three quarters of 2012 were up significantly in Hong Kong (China) (+16%), the USA (+10%), the UK (+6%) and Germany (+5%). At the same time, a significant number of destinations around the world saw receipts from international tourism increase by 15% or more – Japan (+37%), India and South Africa (both +22%), Sweden and the Republic of Korea (both +19%), Thailand (+18%) and Poland (+16%).

5. As per outbound tourism as measured by international tourism expenditure data for the full year of 2012 shows that, although the highest growth rates in expenditure abroad among the ten top markets came from emerging economies – China (+41%), which became in 2012 the top spender in travel abroad in the world, and Russia (+32%) – important traditional source markets showed particularly good results. In Europe, and despite economic pressures, expenditure on international tourism by Germany grew by 6%, while the UK (+4%) returned to growth after two flat years. In the Americas, expenditure by the USA and Canada increased by 6% and 7%, respectively. On the other hand, France (-6%) and Italy (-1%) registered declines in travel expenditure.

6. International tourism in Africa in 2012: Africa (+6%) recovered well from the setback of 2011 when arrivals declined by 1% due to the results of North Africa. Arrivals reached a new record (52 million) due to the strong rebound in North Africa (+9% as compared to a 9% decline in 2011) and to the continued growth of Sub-Saharan destinations (+5%).
7. **Prospects for 2013:** UNWTO forecasts international tourist arrivals to increase by 3% to 4% in 2013, much in line with its long-term forecast *Tourism Towards 2030:* +3.8% a year on average between 2010 and 2020. This outlook is confirmed by the UNWTO Confidence Index included in the January issue of the *UNWTO World Tourism Barometer.* Compiled among over 300 experts worldwide, the Index shows that prospects for 2013 are similar to the evaluation of 2012 (124 points for 2013 against 122 for 2012).

8. **In Africa,** UNWTO forecast a growth in international tourist arrivals between 4% and 6% in 2013, again much in line with the long-term forecast for 2030 in the region: +5.4% between 2010 and 2020.

9. Considering that the current document was prepared in early April 2013, an update of the above information will be provided to the Commission for Africa during its 54th meeting.

**B. Mainstreaming Tourism in the Global Agenda**

10. The ‘Open Letter for Tourism’ campaign has advanced substantially during 2012. The campaign, a joint initiative by UNWTO and the World Travel and Tourism Council (WTTC), comprises the presentation of an Open Letter to Heads of State and Government worldwide, seeking their acknowledgement of the relevance of tourism in facing today’s global challenges and their support for policies that stimulate the growth of the sector. Between 28 February 2011, when President Felipe Calderón of Mexico first received the Open Letter, and the end of March 2013, 48 leaders joined the Campaign, of which 10 from Africa.

11. **Travel facilitation, taxation and connectivity** have been identified as key policy issues to be addressed during 2012-2013. In this regard, the following work has been carried out by the Secretariat.

   a) **Travel facilitation:** Following the important reference made to tourism and to the role of visa facilitation in stimulating growth and jobs in the Declaration of the G20 Leaders (June 2012), UNWTO has continued to advocate for visa facilitation as means to grow the tourism sector.

   The issue was the theme of the 2012 UNWTO/WTM Ministers Summit in London and object of a dedicated debate at the 94th session of the Executive Council, which mandated the Secretariat to “maintain visa facilitation as a priority in the work of the Secretariat and advance it through advocacy at the highest political level and the identification and dissemination of case studies” and to do so “in close cooperation with other international and regional organizations” (CE/DEC/20(XCIV). In this respect, and to support its advocacy work, UNWTO has published in January 2013, an in-depth report on the “openness” level of each world region in terms of visas for tourism (http://dxtq4w60xgpw.cloudfront.net/sites/all/files/pdf/unwto_visa_facilitation.pdf).

   UNWTO is also working with WTTC to conduct an evaluation of the impact of visa facilitation on tourism in the economies of APEC to be finalized by September 2013 and with OECD in the identification of case studies and setting of joint recommendations, in view of a possible International Conference on Travel Facilitation to be held in 2014.
b) **Taxation:** The Secretariat continues to advocate for intelligent taxation, raising awareness of the need to evaluate the economic impact of the raise or introduction of new taxes on travel and tourism. In this regard, a pilot project on a possible econometric model to assess the impact of changes in fiscal policies in tourism is under way in cooperation with WTTC.

c) **Connectivity:** Considering that 51% of all international tourists arrive to their destinations by air, the Secretariat has also started to work on the promotion of connectivity, particularly in terms of air transport, with the aim of raising awareness at the international level of the importance of a closer relationship between tourism and aviation as to ensure mutual benefits. In this respect, the UNWTO Secretary-General addressed the Members States of the International Civil Aviation Authority (ICAO) at ICAO’s Sixth Worldwide Air Transport Conference (18 March 2013) highlighting issues such as the need to review the current legislative framework, taxation, climate change and consumer protection, and appealing for increased cooperation between aviation and tourism both at national and international level.

12. Further to the above, the Secretariat continued to focus on advancing the issue of **Consumer Protection** (see point 14. e)) as well as the overall arching priority of UNWTO’s work – **Sustainability** – through various initiatives in the areas of research (publication of the several reports – see point 14. b)), training, technical assistance and support to the setting of Sustainable Tourism Observatories in China and Greece.

13. The Secretariat also continued to work within the **UN system** and with **other international and regional organizations** such as regional development banks to move tourism higher on the sustainable development agenda. In this regard, it is important to highlight UNWTO engagement in the Post Rio+20 UN processes and stress the following collaborations: the UNWTO-led UN Steering Committee on Tourism for Development, the Global Partnership for Sustainable Tourism (GSTP), the Global Sustainable Tourism Council (GSTC), which will from 2013 onwards be located within the premises of the UNWTO Headquarters in Madrid, the on-going participation of the Organization in the Spanish MDG Fund projects and the cooperation with UNESCO on several tourism and culture programmes, including the World Heritage Tourism Programme, among many others.

**C. Implementation of the Programme of Work 2012-2013**

C.1 **Programme of Work 2012-2013**

14. An important number of activities has been implemented since 53rd meeting of the Commission for Africa and since the report prepared by the Secretariat to the 94th session of the Executive Council covering the period up to August 2012 (document CE/94/3(I)(c)). Among these some are worth highlighting:

a) **Events:** Major global events were held namely:
- the 2012 World Tourism Day Celebrations and High Level Dialogue on *Tourism and Sustainable Energy-Powering Sustainable Development*, in the Canary Islands, Spain (September 2012);
- the *Flavours of the Silk Road: International Conference on Food, Culture and Tourism*, in Baku, Azerbaijan (September 2012);
- the 2nd International Congress on Ethics and Tourism, in Quito, Ecuador (September 2012);
- the Tourism Side Events held on the occasion of the 11th Conference of the Parties to the Convention on Biological Diversity, in Hyderabad, India (October 2012);
- the International Conference Universal Values and Cultural Diversity in the 21st Century: How can tourism make a difference?, in Yerevan, Armenia (October 2012);
- the UNWTO/WTM Ministers’ Summit on Open Borders and Open Skies: Breaking Barriers to Travel, in London, United Kingdom (November 2012);
- the Global Summit on City Tourism: Catalysing Economic Development and Social Progress, in Istanbul, Turkey (November 2012);
- the Tourism and Climate Change Side Event within the UN Climate Change Conference - COP18, Doha, Qatar (November 2012);
- Seminars on Accessibility during the International Tourism Fairs in Madrid (FITUR, January 2013) and Milan (BIT, February 2013);
- UNWTO Silk Road Ministers’ Meeting at ITB (March 2013); and
- The 12th Meeting of the World Committee on Tourism Ethics (March 2013).

b) Publications: Among the outputs of UNWTO’s extensive research programme during the period under review it is worth highlighting the publication of the following reports:

- Four issues of the UNWTO World Tourism Barometer (September and November 2012, Volume 10 and January and April 2013, Volume 11);
- the 2013 Edition of the UNWTO Compendium of Tourism Statistics and of the UNWTO Yearbook of Tourism Statistics;
- the background report on Tourism in the Green Economy;
- the report Tourism and Intangible Cultural Heritage;
- the report Understanding the Chinese Outbound Tourism – What the Chinese Blogosphere is Saying about Europe as well as a 2012 Update on the Chinese Outbound Tourism Report, both in collaboration with the European Travel Commission (ETC);
- the report on five key South-East Asian Outbound Markets: Indonesia, Malaysia, Singapore, Thailand and Vietnam produced in cooperation with Tourism Australia and with the support of the Government of the Republic of Korea; and
- a series of Affiliate Members Reports covering City Tourism, Food Tourism and Aviation.

c) Technical Cooperation and Development Assistance: During 2012, a total of 25 ST-EP projects were under implementation in 30 countries; four new projects have started in 2013 (Bolivia, Burundi, Jordan and Timor-Leste). Furthermore in this period, ten technical cooperation projects were in various stages of implementation: projects in Burundi, Egypt, Ghana, Mali, Oman, Romania and Ukraine (Autonomous Republic of Crimea) were completed; projects in India (Punjab), Uganda and the Regional Project in collaboration with RETOSA (13 Southern African countries) continue in 2013, new projects in Azerbaijan and Saudi Arabia were launched in early 2013 and several more are in the pipeline. In addition, 11 MDG-F Achievement Fund (MDG-F) projects were under implementation during 2012 in Ecuador (2), Egypt, Honduras, Nicaragua (2), Panama, Peru, Senegal, Serbia and Turkey.

d) Education and Capacity Building: Through the UNWTO Themis Foundation, UNWTO’s executive arm for education, several training courses were held in the various regions
covering areas such as statistics and Tourism Satellite Account (TSA), sustainable development, competitiveness and energy management. Moreover, the 2012 English edition of the UNWTO-Themis Practicum was dedicated to Tourism Communications and Social Media (Andorra/Spain - September 2012) while a special Training Course on Tourism and Biodiversity: Understanding Tourism Trends and Biodiversity Conservation for Innovative Products and Marketing was held in the UNESCO Rhön Biosphere Reserve, in Germany (October – November 2012) organized by the UNWTO Bonn Office.

e) Special Initiatives and Projects: Four special initiatives and projects have been further advanced during the period under review:

- **Hotel Energy Solutions (HES):** The Secretariat has continued to promote the use of this tool in several events and meetings and is currently discussing with a number of Member States the adaptation of the HES online toolkit to the national level.

Building upon the experience and expertise of HES, UNWTO is taking part on a new initiative to fight climate change in the accommodation sector. The Nearly Zero Energy Hotels (NEZEH) project will guide and advise hotels on how to reach a “Nearly Zero Energy” level. The methodology, to be developed together with participating properties in eight EU Member States, will use a combined approach of expertise and an adapted version of HES, for hotels to be able to reach the required level of energy efficiency and the use of renewable energy sources. The NEZEH project was selected by the Executive Agency for Competitiveness and Innovation (EACI) within the priorities of the EU “Energy efficiency and renewable energy in buildings” in the Intelligent Energy Europe call for proposals. The project, with a total value of 1.8 million euros, will start in May 2013. UNWTO is a partner of the project together with research institutions, energy agencies and networks based in Greece, Italy, Sweden, Romania, Croatia, Belgium, Spain and France.

- **Knowledge Network and UNWTO Awards:** The UNWTO Knowledge Network is an inclusive community of knowledge within the UNWTO Affiliate Members Programme where knowledge generators, policy makers and practitioners interact to bridge “Theory and Practice in Tourism”. As of January 2013, the Knowledge Network is composed of 130 institutions, organizations and enterprises from 48 different countries. During this period, a series of initiatives was carried out in the scope of the Knowledge Network. These include the 1st Meeting of the UNWTO Knowledge Network in the Americas held in Campeche, Mexico (October 2012), the UNWTO Knowledge Network Session & UNWTO Knowledge Network Symposium, held in Istanbul, Turkey (November 2012) and the attribution of the 2012 UNWTO Awards for Excellence and Innovation in Tourism, comprising the first edition of the UNWTO Award for Lifetime Achievement. The 2012 UNWTO Awards Ceremony took place in the framework of the Global Summit on City Tourism, the UNWTO Knowledge Network Session and Symposium in Istanbul, Turkey (November 2012).

- **Legal instrument on tourist/consumer protection:** The 94th session of the Executive Council requested the UNWTO working group on the protection of tourists/consumers and travel organizers to continue the elaboration of the text of the convention and present a report on its progress to the 95th session. The Executive Council also decided to broaden
the scope of discussions and consultations with all Member States, namely, through the Regional Commissions’ meetings. In this respect, this issue will be object of a dedicated point in all Regional Commission meetings.

- **DEVCO Project:** The European Commission (Directorate General Development and Cooperation – DG DEVCO/EuropeAid) has requested UNWTO to prepare a Guidebook on Sustainable Tourism as an engine for development, trade in services, job creation and poverty reduction. The Guidebook will enhance the understanding of tourism in all its dimension, how it relates to the EU Agenda for Change so as to enable EU services in Brussels as well as the EU Delegations in 180 countries and other development institutions to include sustainable tourism development in their programme cycles. The Guidebook is currently on a testing phase in six countries (Botswana, India, Kenya, Vietnam, Senegal and Timor-Leste) and is expected to be publicly launched together with the EU authorities in June 2013 (Brussels).

**C.2 Specific UNWTO Activities in Africa**

15. In line with the Organization’s Programme of Work and strategic objectives, the primary focus of the activities carried out in Africa has been on improving competitiveness and sustainability. This has been done through a series of initiatives, including capacity building, research and technical assistance.

a. **Capacity-building**

- **National Statistical Capacity-Building Programme in RETOSA Member States** (October 2010-December 2012): With the purpose of providing technical assistance to the Member States of the Regional Tourism Organization of Southern Africa (RETOSA) in the strengthening their systems of collection and analysis of tourism statistics, UNWTO and RETOSA have embarked upon a project to implement the UNWTO National Statistical Capacity-Building Programme (NSCBP) to all RETOSA Member States.

- The **Regional Workshop on Tourism and the Media** (Lusaka, Zambia, March 2013): organized by UNWTO and the Ministry of Tourism and Arts of Zambia, aimed to give communication professionals the opportunity to discuss about the impact of tourism coverage, as one of the most remarkable socio-economic phenomena of our times. More than 80 participants from tourism administration and media professionals discussed about the reality of the tourism sector in the current media environment.

b. **Technical Assistance**

- **Botswana:** In 2007, UNWTO completed a tourism statistics project for Botswana which culminated in the formulation of the first preliminary TSA for the country. Given the interest raised by all stakeholders in the TSA exercise and understanding that TSA is a continually evolving tool with data that can be improved in terms of range, scope and accuracy, the Ministry of Environment, Wildlife and Tourism of Botswana decided to engage UNWTO’s technical assistance in a new project with particular emphasis on developing staff skills for implementing the TSA and in continuing the compilation and dissemination of a wide range of statistics to all stakeholders.
- **Burundi**: The Government of Burundi has identified tourism as a priority sector for development and requested a support to set a long-term tourism development strategy which would guide the sustainable development, marketing and promotion of tourism to the country. As a result, between 2009 and 2011, UNWTO and the United Nations Development Programme (UNDP), prepared a National Strategy for the Sustainable Development of Tourism which was formally launched in September 2011. The Government of Burundi requested further technical assistance from UNWTO/UNDP in 2012/2013 to formulate an Action Plan that would guide the implementation of the National Strategy as well and raise funds for its implementation.

- **Ghana**: In collaboration with UNDP, the United Nations Economic Commission for Africa (UNECA), UNWTO reviewed the existing National Tourism Development Plan of Ghana to assess its status of implementation and formulate a new and updated Tourism Plan reflecting current realities and development. The updated National Tourism Development Plan (2013-2027) was presented in December 2012. The Plan presents a 15-years strategy that will strengthen and expand the range of products throughout the country, spreading economic benefits, extending the length of stay of visitors and contributing to poverty alleviation.

- **Mali**: In 2012, an Ecotourism Plan that will guide the National Tourism Office (OMATHO) to position Gourma as an ecotourism destination within Mali’s main tourism circuit by enhancing and diversifying the existing offer while contributing to the conservation of the last population of elephants in Mali was completed and validated.

- **Morocco**: On 26 March 2013, UNWTO and UNDP Morocco signed an agreement to support the Moroccan Ministry of Tourism in the establishment of a new system of tourism hotel classification. The 5-years project, started in April 2013, aims to consolidate a standing level of competitiveness for the Moroccan hotels which will enable them operating on an international level.

- **RETOSA**: During the period 2012-2013, three workshops were organized, respectively in May 2012, September 2012 and March 2013 covering topics such as the introduction to the TSA, the development of the TSA Tables 1-10 and the measurement of tourism supply and the reconciliation of demand and supply.

- **Togo**: Tourism development activities are part of the Togolese Government priorities. In this regard, UNWTO and the Government have signed in March 2013 a working agreement for the implementation of the Tourism Master Plan aimed at defining a tourism policy and an action plan in the framework of the re-launch of the tourism development in Togo.

- **West African Economic and Monetary Union (UEMOA)**: Following the agreement signed in June 2011 between UNWTO and UEMOA, a mission has been conducted in 2012 to prepare a project proposal and a report to assess the quantitative and qualitative tourism education needs in the eight Member States of the UEMOA (Benin, Burkina Faso, Côte d’Ivoire, Guinea-Bissau, Mali, Niger, Senegal and Togo). The proposal included: i) the implementation of training and education in tourism and hospitality industry; ii) the creation of an observatory on tourism occupations and the elaboration of system of reference in tourism occupation and competences; iii) the implementation of a certification system for tourism training quality label; iv) the assistance in the implementation of Degree, Master and Doctorate; v) the creation of regional centres of Excellence one of them dedicated to training trainers; and vi) the implementation of virtual platform for e-learning and elaboration of learning tools for UEMOA area. The participants from the eight countries approved and endorsed the
project proposal and six actions of the action plan, in the occasion of the validation meeting which took place in Togo in March 2013.

- **Uganda**: UNWTO, in collaboration with UNDP, is implementing a project which provides policy and strategic guidance for tourism development in Uganda through the formulation of a Tourism Policy and a Tourism Development Master Plan.

c. **Events:**
   - The **fourth edition of the Tourism Investment Forum for Africa (INVESTOUR)** was held on 31 January 2013 at FITUR in Madrid. This joint initiative between the International Tourism Fair of Madrid (FITUR), Casa Africa, representing the Spanish Government, and UNWTO promotes sustainable tourism development in Africa by opening up its destinations to the Spanish outbound and investment markets, while fostering the growth of Africa’s entrepreneurial fabric and job creation.

   - The **First Pan-African Conference on Sustainable Tourism Management in African National Parks and Protected Areas: Challenges and Opportunities** organized by the Tanzanian Government and UNWTO in Arusha, Tanzania (15-19 October 2012) was aimed at encouraging a professional approach to park management in order to a) better position ‘park tourism’ as an essential and integrated component of overall national park management in Africa, b) acquire an overview of the current challenges in terms of demand and supply chain, and c) discover how to re-engineer park management structures through new partnership and business models and d) provide insight into the necessary tools to maximize the economic and social benefits to the local communities.

D. **Administrative and Financial Matters**

**D.1 Financial Matters**

16. Despite the zero nominal growth, preliminary information on the financial implementation for the year 2012 indicates that the closing of year has been balanced at 12,276,000 euro according to the approved regular budget expenditure plan complemented with some 5,784,000 euro on extra-budgetary. The final 2012 financial information will be presented to the Programme and Budget Committee Meeting (2-3 May) following the approval of the 2012 accounts by the auditors and thereafter to the 95th session of the Executive Council.

17. The Secretariat has noted with appreciation efforts made by the large majority of Member States to keep current on their financial obligations and, in some cases, to advance the payment of accumulated arrears, particularly in the current economic context. Without the continuous financial means provided by its Members, it would not be possible for the Organization to operate adequately.

18. Regarding the financial situation for 2013, the Secretariat has elaborated a plan of expenditure based on prudent financial estimates to present to the Programme and Budget Committee Meeting (2-3 May) and thereafter to the 95th session of the Executive Council.

19. Notwithstanding, the main issue we continue to face is the challenge of transforming a zero nominal growth of the Organization’s budget in place for the last six years into an opportunity to further rationalize expenditure and programme delivery. While the Organization has done well in this regard so far, a continuation of such policy into the 2014-2015 biennium may jeopardise its
capacity to deliver in volume and quality. The Secretariat remains naturally actively engaged in avoiding negative impacts from such risk.

20. The Secretariat also continues highly committed to strengthen the efforts in raising extra-budgetary funds for technical cooperation activities as well as for other programmes and would like to recall all Member States that as reported to the 19th session of the General Assembly, UNWTO now is recognized as an ODA Eligible Organization for Bilateral Aid, which means that funds channelled through UNWTO for projects in ODA eligible countries can now be considered as an official development assistance amount. The Secretariat also continues to work with the DAC Committee of the OECD in order to transform UNWTO a fully-fledged ODA eligible international organization.

D.2 Administrative Matters

21. In view of the objectives of improving working conditions in the Organization, and pursuant to the decision of the Executive Council [decision (XCIV)] to establish an Ethics Function at UNWTO, the Secretariat is currently taking the necessary steps to implement the function internally.

22. In the area of Human Resources, six vacancy announcements were released, five of which have been filled - Programme Director, Statistics and Tourism Satellite Account; Programme Officer, Technical Cooperation and Services; Programme Officer, Information and Communication Technologies; Senior Programme Assistant, Risk and Crisis Management (now part of Sustainable Development of Tourism); and, Programme Assistant, Communications. The selection process for the post of Regional Director for Africa is currently being finalized. Furthermore, the Organization encourages its Members to avail themselves of the existing capacity-building scheme whereby Members may propose to loan to the Organization, on a non-reimbursable basis, a national official. This arrangement, which would be formally done through a Memorandum of Agreement, would allow the Organization to profit from the collaboration of this official while the official, in turn, would benefit from hands-on training and familiarity with the Organization’s activities.

D.3 Legal and Procurement

23. In the area of legal and contracts, the UNWTO Basic Documents have been revised and updated to reflect all amendments approved by the Governing Bodies since their last publication in 1994 and to include new Basic Documents that constitute the main legal framework of the Organization. The new edition of the UNWTO Basic Documents will be presented to Member States before the 20th session of the General Assembly.

24. In the area of procurement, the Detailed Financial Rules have been revised to align them with UN procurement standards and practices and a draft text will be submitted to the 95th session of the Executive Council for approval. Meanwhile, a procurement manual, templates for contract and other bidding documents are being finalized together with a procurement implementation plan to apply progressively the new rules to the procurement activities of the Organization.
