During the mandate 2013-2015 the CTC members elaborated the following definitions/concepts:

- Tourism Destination
- Destination Management / Marketing Organization
- Tourism Product
- Tourism Value Chain
- Quality of a Tourism Destination
- Innovation in Tourism
- Competitiveness of a Tourism Destination

A simplified framework for destination competitiveness has also been identified including a list of quantitative and qualitative factors under two topics: i) governance, management and market dynamics, ii) destination appeal, attractors, products and supply.
Further definitions will be harmonized: e.g. tourism image, tourism brand, accessibility, accommodation types, tourism and/or product typologies (i.e. urban/city tourism, ecotourism, rural tourism, coastal tourism, cruise tourism, adventure tourism, cultural tourism, religious/spiritual tourism, wellness/spa tourism, medical tourism, mega-events tourism, meetings industry etc.) for review and consensus.

A new initiative will be launched: (Proposed by Peru –Chair of CTC)) which aims at elaborating a series of technical publications which analyze and conceptually define the quantitative and qualitative factors of destination competitiveness and at the same time showcase a number of destinations at national, regional and/or local levels which already developed efficient methodologies, tools and indicators to evaluate their competitiveness, given some of the related factors/variables.
Thank you!
