Item 6.4 of the Agenda

Committee on Statistics and the Tourism Satellite Account

Presented by Mozambique, 19 April 2016, Abidjan Côte d’Ivoire
UNWTO Statistics mandate

“The United Nations recognizes UNWTO as the appropriate organization to collect, to analyze, to publish, to standardize and to improve the statistics of tourism, and to promote the integration of these statistics within the sphere of the United Nations system.”

Consequently, the Executive Council requires the collaboration of the Committee in the following areas:

The Statistics Committee is a subsidiary advisory body of the Executive Council. As such, it contributes to the fulfilment of Article 13, paragraph 3 of the Agreement signed between the United Nations and UNWTO (above)
Statistics Committee: mission

- proposing initiatives related to the design and implementation of international tourism statistics recommendations;

- promoting international comparability of tourism statistics by proposing initiatives relative to the collection, homogeneity, processing and dissemination of data;

- supporting efforts to integrate such data into the frameworks of the system of national tourism statistics and the Tourism Satellite Account;

- helping member countries in their initiatives to improve their respective national systems of tourism statistics and in the development of the TSA;

- liaising with other international bodies with delegated responsibilities for leadership and coordination of related international statistics and their standards within sphere of the UN system.
Statistics committee: members

Need to assess & monitor the role of tourism in sustainable development

2030 Agenda - SDGs
1. Tourism indicators within the SDGs
   • “Core set”: Target 8.9, 12.b and 14.7
   • “Tourism theme”: additional indicators annexed to core
     • Other targets beyond 3 core
     • Capture more detail within the targets (>1 indicator/target)
     • Disaggregation of indicators
   ➢ Engagement in international process towards SDG indicator framework
   ➢ Alignment of tourism indicators with coverage and detail of statistical framework under development—to support provision of data on a consistent and comparable basis for derivation of indicators

2. Towards a statistical framework for sustainable tourism underpinned by SEEA-TSA
   • Clarifying used requirements
   • Describing sustainable tourism
   • Assess relevant statistical guidance and frameworks
   • Assess country experiences
   • Describe key measurement challenges
   • Develop country case studies
   • Propose a statistical framework for sustainable tourism

3. Integration of sub-national perspective
   • INRouTe/UNWTO Handbook worldwide consultation
   ➢ Handbook as starting point for:
     • Extending statistical framework to ensure coherence between tourism statistics at multiple scales
     • Exploring SDG indicators spatial disaggregation
