(*) Online Access Method

Network Access

In case you are applying for a Network Access, please do not forget to fill in the number of users and your IP Address, because otherwise your access cannot be enabled.

IP access requires the IP address that covers the computers in your institution. For the successful Network Access set-up please list IP address or range. The complete IP address contains Network Address and Network Mask.

Please list this information in the following manner:

e.g. 10.1.3.0 (network address) and

or

Star (*) notation – e.g. 10.1.3. *

If you do not know this information then you may need to contact your network manager to get the relevant numbers.
