

GUIDELINES FOR REDUCING CORONAVIRUS INFECTION IN THE TOURISM INDUSTRY

MINISTERIO
DE INDUSTRIA, COMERCIO
Y TURISMO

SECRETARÍA DE ESTADO DE TURISMO

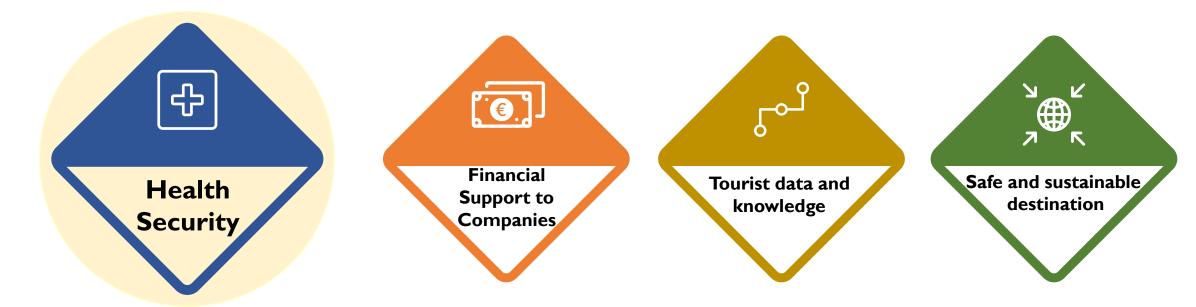

INTRODUCTION

The Government, through the **Ministry of Industry, Trade and Tourism**, is working together with the Autonomous Communities and tourism agents in the day after this crisis, so that tourism can be reactivated as soon as possible, and with greater strength.

In order to face the crisis caused by COVID-19 in the tourism sector, work is being done on the **Tourism Relaunch Plan**, promoted by the Ministry in coordination with the Autonomous Communities and the industry. This Tourism Relaunch Plan consists of four pillars:

Safe person, safe destination

Safe person, safe destination

Health safety is going to be an even more important factor in the tourism industry. In order to ensure the competitiveness of the tourism industry while guaranteeing the safety of all, destinations will have to offer services that meet high health standards.

The entire tourism value chain needs to have a set of health recommendations and protocols that will give the traveler confidence. Furthermore, these measures are essential so that employers and workers are able to provide their services safely, protect themselves and their environment and adapt faster to new conditions.

Elaboration

- According to our experience, protocols and guides must be homogeneous for the entire national territory and ought to be prepared by each of the sub-sectors with the support and assistance of the Ministry.
- Continuing with the idea of homogeneity, we firmly believe that all countries should have common health guides and protocols that give confidence and peace of mind to tourists.

It is therefore necessary to work on individualized health measures for all sectors, subsectors and activities that make up the sector's value chain (international and national mobility, accommodation services, leisure and recreational facilities, restaurants, etc.), as well as on complementary measures to ensure the full effectiveness of the "safe people, safe destinations" policy.

Guides with recommendations

The following is a list of the different **guides with recommendations** that have been promoted, following the possible services that a tourist could use in a destination. All these recommendations will be compiled to create a holistic guide, "Safe Person, Safe Destination: Security 360°", which will be displayed by subsector:

- 1. Recommendations for **Airports**
- 2. Recommendations for **international mobility**
- 3. Recommendations for **Ports.**
- 4. Recommendations for **Railway Stations**
- 5. Recommendations for **trains**
- 6. Recommendations for **buses**.
- 7. Recommendations for "rent a car" vehicle rental
- 8. Recommendations for cabs and ride-hailing services
- 9. Recommendations for tourist accommodations

- 10. Recommendations for **tourist homes**
- 11. Recommendations for campsites
- 12. Recommendations for catering establishments
- 13. Recommendations for **nightlife**
- 14. Recommendations for museums and cultural institutions
- 15. Protocol and recommendations for **beaches**
- 16. Recommendations for **Theme Parks**
- 17. Recommendations for **Golf Courses**
- 18. Recommendations for **Fairs and Congresses**

Guías para la reducción del contagio por el coronavirus SARS-CoV-2 en el sector turístico

Medidas para la reducción del contagio por el coronavirus SARS-COV-2

La Secretaría de Estado de Turismo en coordinación con el Ministerio de Sanidad ha elaborado las guías de especificaciones para la reducción del contagio por el coronavirus SARS-COV-2. Las guías contienen especificaciones de servicio, limpieza y desinfección, mantenimiento y gestión del riesgo para los diferentes subsectores del sector turístico.

Estas guías completan las medidas dispuestas por las órdenes del Ministerio de Sanidad, y, en todo caso, se supeditan a las mismas.

En su elaboración han participado las Comunidades Autónomas, Federación Española de Municipios y Provincias (FEMP), los agentes sociales, las asociaciones de cada subsector, expertos participantes en los grupos de trabajo y la Asociación Española de Servicios de Prevención Laboral (AESPLA), coordinados por el Instituto de Calidad Turística, entidad a la que la Secretaría de Estado de Turismo ha encomendado esta labor.

Contents

The II guides published so far have a common core of content and a specific part for each sub-sector that includes the health measures required for each particular service for both workers and users. The most outstanding elements:

- I. Need to establish risk management committees.
- 2. The contingency plan must, among other measures, allocate human and material resources for protection and implement an action protocol in the event that people show symptoms compatible with COVID-19.
- 3. Additionally, measures for the planning of tasks and processes to guarantee the safety distance are contemplated.
- 4. In addition, **specific measures are contemplated for staff**, with particular sections for cleaning and kitchen staff and their training.
- 5. Clients must be informed of all the measures of the plan that affect them.
- 6. Disinfectant dispensers must be installed in the common areas of establishments.

Contents – Examples of measures

¿Cómo lavarse las manos?

Duración de todo el procedimiento: 40-60 segundos

Mójese las manos con agua;

Deposite en la palma de la mano una cantidad de jabón suficiente para cubrir todas las superficies de las manos;

Frótese las palmas de las manos

Frótese la palma de la mano derecha contra el dorso de la mano izquierda entrelazando los dedos y viceversa;

Frótese las palmas de las manos entre si, con los dedos entrelazados;

Frótese el dorso de los dedos de una mano con la palma de la mano opuesta, agarrándose los dedos;

Frótese con un movimiento de rotación el pulgar izquierdo, atrapándolo con la palma de la mano derecha y viceversa;

Frótese la punta de los dedos de la mano derecha contra la palma de la mano izquierda, haciendo un movimiento de rotación y viceversa;

Enjuáguese las manos con agua;

Séquese con una toalla desechable;

Sirvase de la toalla para cerrar el grifo; Sus manos son seguras.

Conclusions

This guidelines aims to demonstrate Spain's strong commitment to safe and quality tourism.

Working together in the generation of these guides at an international level is indispensable. We hope our guides can lay a common foundation.

This will also contribute to the recovery of the tourism industry, by guaranteeing that traveling is safe. We will build together the model of a safe destination through safe people.
