THE OPPORTUNITY
from growth to sustainability
UNWTO is collaborating with the IFC to provide Technical Training programs for the tourism industry in order to promote green finance to stimulate tourism recovery and ensure the development of a competitive and sustainable economic growth.
Therefore, policy makers and private investors have to collaborate to manage tourism growth in a sustainable way. It’s estimated that additional funding of USD 2.5 trillion is needed annually to achieve the Sustainable Development Goals (SDGs). Traditional overseas development assistance (ODA) alone cannot cover this gap. Sustainable Investments are critical to set the path to co-create innovative initiatives.©
OBJECTIVES:

OE1
Identify aggregators across the hotel value chain in order to promote and implement sustainability measures (Performance and Efficiency).

OE2
Provide skills training on green building adoption and transitions to enable sustainable investments (Accreditations and Certifications).

OE3
Facilitate sustainable investment mechanisms to access green finance opportunities (Compliance and Brand Reputation).
GREEN FINANCING AND SUSTAINABILITY

**Investment**
Long-term loans, warehousing facilities, guarantees and risk-sharing facilities, structured finance, green bonds

**Advice**
Support in identifying or developing your investment pipeline, market intelligence, technical advice, training for loan officers

**Market creation**
Global and local marketing campaigns, stakeholder education, capacity building, technical guidance, promotion of incentives
R1. Access to Technical Training programs on green building adoption and transitions

R2. Access to the EDGE Experts accreditation program (UNWTO and IFC platforms and software).

R3. Mapping of potential aggregators across the hotel value chain (Investors, owners, operators, franchisees).

R4. Promote the value of certification across the hotel value chain (incentives and brand reputation).

R5. Prioritization of potential projects and investment strategies (Benchmark and Evaluation).

R6. Access to green financing vehicles to leverage green finance opportunities (Compliance and Competitiveness).
Access to Green Finance Mechanisms (Sustainable Hotels)

From 2014 to 2019, about 70 percent of global hotel investments were made by general investors with diverse portfolios. 4

Private equity investments and real estate investment trusts (REITs) constituted the majority of 2018 transactions, with a notable increase in portfolio acquisitions instead of single-asset purchases. 5

Among the largest hotel chains less than 10 per cent are owner-operated. 6

Foreign investment is strong in the hotel sector, with cross-border investment increasing 18 per cent to USD 4.5 billion from 2017 to 2018. 7
