We capitalize on local resources and products, local traditions and contribute to the economic and social development of the mountain area

We encourage outdoor activities with our team building programmes

We value the natural and human potential of the village and aim to improve the living conditions within the community

We pride ourselves with natural foods provided by authorized local producers, delicious dairy products coming from the farms in the area and many assortments of pickles, jams, home-made cakes and local brandy.

We promote local gastronomy, with traditional recipes or our collection of culinary specialties.

**We have an active partnership with
Foundation Conservation Carpathia: one of the
Largest Conservation Initiatives in Europe**

FCC's mission is to contribute to the conservation and restoration of the natural Carpathian ecosystem, for the benefit of biodiversity and local communities

Our partnership aims to develop wildlife and nature tourism programs

**We invite UNWTO to organize in 2021 a workshop,
in Romania, at Aqvila Club Rucar, with the theme
"Development of Eco and Rural Tourism in
Romania"**

<https://aqvilaclub.ro/>

In the current situation generated by Covid 19, tourism is reoriented towards safe destinations and the villages in Romania are ideal locations in this regard.

Even though we are at the beginning of the third millennium, Romania continues to welcome its guests with its villages where the landscape and traditions breathe an archaic atmosphere.

The traveler to Aqvila Club Rucar now has the opportunity to discover such places where shepherds lead their flocks of sheep on mountain pastures, to see the campfires burning , to witness the milking of sheep and the preparation of cheeses. The tourist will be able to be not only a simple guest but also an active participant in hay picking, he will be able to learn to sew in the war of weaving, to participate in the decoration of eggs, to cook or cut wood.
