4. Thematic session
SMEs and Talent: Transforming Tourism

This thematic session will delve into the recovery and future of the backbone of the tourism sector, Micro, Small and Medium Enterprises (MSEMs), who suffered the most acute impacts of the pandemic exasperating existing challenges in the areas of liquidity and financing, human resources and digitalization. Speakers will be invited to share their views on the current state of the consolidation of sector revitalization and emerging obstacles faced by SMEs which have become more evident given shifts in the world of work, adequate new skills, education, digitalization, workforce retention alongside education and training in the economic recovery of the tourism sector.

Representing around 80% of all businesses in tourism worldwide, and in some G20 economies as much as 98%, MSMEs are vital for the sector’s competitiveness, job creation and transition to a more sustainable model. Supporting MSMEs as agents of transformation in tourism will lead the way towards a more inclusive, resilient, and sustainable sector. The importance of digitalization for SMEs needs to be accelerated for economic recovery of the tourism sector by supporting SMEs to unleash digital technologies in terms of payments, marketing to resolve gaps and to create jobs.

Against this backdrop, to contribute to the closing of the technology skill gap in the tourism SMEs, the Government of Morocco will be the first to sign the Digital Futures Pledge to commit to supporting 10,000 local SMEs in participating in the Digital Futures Programme to take the digital diagnostic tool and implement specific training programs fostering partnerships with the large technology companies to accelerate digital transformation, and provide innovative data-driven solutions for SMEs driving competitiveness in the tourism Sector.

The Session will culminate with a Call to Action for accelerated for economic recovery of the tourism sector by supporting SMEs to unleash digital technologies to create jobs and enhance future resilience in the linkages of the tourism value chain post COVID-19. The Call to action will be based on a survey conducted among G20 countries around the following 5 pillars: Human Capital, Innovation, digitalization and creative industries, Women and Youth Empowerment, Climate Action, Biodiversity Conservation and Circularity, and Policy, Governance and Investment Framework.
