SESSION I WOMEN AND YOUTH: A SPOTLIGHT ON TALENT

Tourism, Hospitality and Gastronomy are great sectors, in terms of cultural importance, economic contribution and employment.

We also have challenges. In this Session we are going to concentrate in some of the main ones

The main questions are: what do we have to maintain and what do we have to change

A group of people, mostly men, are seated around a long white table in a modern, brightly lit room. They are wearing white lab coats or chef's uniforms. The room has large windows with a patterned glass design, and the floor is polished. A whiteboard is visible on the right side of the frame.

At different levels:

- Individual and leaders,
- Companies-business management,
- Education institutions, and
- Public policies

Tourism, Hospitality and Gastronomy as a force for transformation
